Grate Area	2.75 sq. ft.
Net Coal Capacity	150 - 180 lbs.
Net Wood Capacity	100 - 120 lbs.
BURNER INFORMATION	
BTU Capacity Air Bonnet Oil	70,000 BTU/H
Maximun Firing Rate	.65 GPH
Cabinet Width	26"
Cabinet Height	39 1/2"
Cabinet Length	39"
Firing Door Size (w x h)	15" x 11"
Stack Diameter	7" (8" ^)
Warm Air Outlet	24" x 36"
Cold Air Inlet	18" x 18"
Blower Size	10"
CFM Capacity at Bonnet (1/4"SP)	1,100
Filter Size (1 required)	20" x 20"
Shipping weight	600 lbs.

^ Units shipped into areas where bituminous coal may be burned may have larger diameter stack.

The YANKEE Furnace

- Large Fuel Capacity
- Burns 24" Wood
- Large Firedoor for Easy Solid Fuel Loading
- Coal Units with external shaker handle and Extra Heavy Cast Iron Shaker Grates
- Wood Units with Heavy Cast Iron Tubular Grates
- Convenient Ash Removal
- Solid Fuel and Oil Fires Thermostatically Controlled
- Quiet Efficient Flame Retention Oil Burner
- Attractive "Warm Red" Cabinet
- 5-Year "Limited Warranty"
- Manufactured to provide years of service
- American Made

Safety tested by an independent laboratory to the following standards: UL391, CSA B 366.1 and ETLM 78-1
